Automatic Aid is a formal agreement between area fire departments that share a common boundary. Automatic Aid occurs whenever certain predetermined conditions exist and are reported to the 911 dispatcher from the caller. Automatic Aid is a sharing of local resources.

Mutual Aid is a reciprocal agreement between regional and state wide fire departments. Responses under a Mutual Aid agreement are usually provided only when an agency asks for assistance, such as when its resources are depleted by an unusually large incident or a number of simultaneous small incidents. Specific resources may also be requested for certain situations, such as hazardous materials and rope rescue teams.
