**Cost of Development:** The Town of Clarkdale has long held the philosophy that new development should "pay for itself" and not burden existing residents and property owners with the cost of infrastructure, public services and facilities needed by that new development. The purpose of the Cost of Development element is to identify the fiscal impacts created by new development and determine how costs will be equitably distributed.

Following are changes/corrections/additions or deletions discussed:

-Page One: Third paragraph, first sentence: A number of options are available to the Town to extend needed infrastructure into an un-served or underserved area. (Add: are *currently* available).

-Page One: Under Improvement Districts: change the city to the *Town*.

-Keep consistent when typing the word Town (with a capital "T").

-The Community Development Director explained the Improvement Districts and Impact Fees section. Mountain Gate is a good example of the Community Facilities Districts.

Page Two: **Under Development Section:** **Goal:** Equitably assess and manage the fiscal and capital impacts resulting from new development.

Following are changes/corrections/additions or deletions discussed:
