There was open discussion on the book collection. Board Member Rotchford informed that she had an acquaintance in California who is the owner of an old and rare book store who has

expertise in collector books. She has offered her service to review the list of books to identify which, if any, were valuable in the collection. The consensus of the Board was to provide the list to Board Member Rotchford to have the collection reviewed.

Community Services Supervisor Norman informed that Staff will be holding a work session to discuss the collection and options on how to proceed on the project.

There was open discussion on what books should be kept in the cases of the Reading Room. Chairperson Hill stated that she would like to keep books relating to Clarkdale and the Southwest in the cases and that she would like to see the Reading Room brought back to its original state.

AGENDA ITEM: LIBRARY IMPROVEMENTS– Discussion and consideration of library improvements.

Public Works Director Burroughs presented the Board with changes in the plan including the multi-use room and the relocation of the kids area. There was open discussion on the changes and the use of the multi-use room.

Public Works Director Burroughs stated that he had received several proposals on the project. The original intent was to hire a contractor to complete the project from start to finish but due to the discrepancy in project costs versus the funding available this was not an option. In order to save on costs, portions of the project will be performed in-house including the electrical and moving of the books. In addition, rolled carpet will be used in place of the carpet tiles due to the large difference in price – carpet tiles are \$4.50-\$5/carpet tile versus rolled carpet coming in at approximately 2/3 less. There was open discussion on the carpeting and tile.

Public Works Director Burroughs stated that proposals were coming in over \$26,000 and the funding available for the project is approximately \$23,400, this figure includes the remaining funding from the State Grants-in-Aid grant. Community Services Supervisor Norman informed the Board that there was \$5,800 in the Library Donation Account. She proposed if the Board would consider making these funds available in order to make up the difference. There was open discussion on making the Library Donation Account available for the project. Public Works Director Burroughs stated that he could present a more accurate figure to the Board for their approval.

Board Member Bohall motioned to approve the use of Library Donation funds to make up the difference subject to the Board's final approval. Board Member Peterson seconded the motion. The motion passed unanimously.
