Comments

The hydrants placed by developers at sites still under construction are anticipated to be turned over to Clarkdale Utilities when development is completed. We are working with the owners of the other private hydrants to get them in service.

Hydrant #23, located at 9th Street North of Main Street (not listed), is scheduled for removal, because it is not needed.

Automatic Aid is a formal agreement between area fire departments that share a common boundary. Automatic Aid occurs whenever certain predetermined conditions exist and are reported to the 911 dispatcher from the caller. Automatic Aid is a sharing of local resources.

Mutual Aid is a reciprocal agreement between regional and state wide fire departments. Responses under a Mutual Aid agreement are usually provided only when an agency asks for assistance, such as when its resources are depleted by an unusually large incident or a number of simultaneous small incidents. Specific resources may also be requested for certain situations, such as hazardous materials and rope rescue teams.
