## Town Manager –

Plexiglass is scheduled to be installed next week. We will open the offices to the public once the installation is complete at all transaction counters. We are striving to be open publicly by June 15, 2020.

We were recently informed that local towns/cities below 500,000 will receive COVID-19 relief funds from the State of Arizona CARES Relief. This has some flexibility, but will only fund expenses with Fire, Police, EMS, and 911. The Town can submit a forecasted payroll from March 1, 2020 through December 31, 2020 under this AZCares fund. The Town of Clarkdale has been designated for an allocation of \$504,116 of the \$441 million the state received from CARES Act dollars. In order for the Town to receive any of these funds, the municipality must register with FEMA for public assistance. The Town Council passed a resolution designating a Public Agent at this week’s Council Meeting allowing for the organization to complete the FEMA registration.

Staff has attended meetings to make sure we have documentation to apply for both the FEMA Public Assistance and the AZCares Funding. This requires a significant amount of documentation and we are working diligently to get the information uploaded in the appropriate grant modules.

*COMMUNITY DEVELOPMENT DEPARTMENT  
UPDATES*

---

- Code Enforcement – No complaints received this week.
- United Verde Soil Program – There were 121 permit renewals for the restoration program.
- Trails – AllTrails has accepted staff's Blowout Wash route and posted it to their app. <https://www.alltrails.com/explore/trail/us/arizona/blowout-wash>
- Census 2020 – As of Tuesday, June 2, 57.6% of Clarkdale's households have responded to the 2020 Census. Compare that to 56.9% for all Arizona households and we're doing ok. National response is a little higher at 60.6%, but many homes in historic areas of Clarkdale that do not receive US Mail haven't been counted yet. Census enumerators will visit these homes starting this month.
- Staff had a phone conversation with Mike Lidner regarding the application process for modifications to the Museum. Mr. Lidner mentioned that the Museum would likely include restoration of the front doors in discussions with SHPO regarding the historic appropriateness of the new ramps. It was noted that when the Town receives the Certified Local Government status, the museum may be eligible for additional grant opportunities. Since the building is owned by the Town and there is a Facility Use Agreement with the Museum, the modifications will come before the Town Council.
